```
CA:\WINDOWS\system32\cmd.exe

***** HELP for Using USB-Drive for Install of Windows XP: *****

Boot with USB-Drive plugged and Press [Delete] to Enter BIOS Setup
Change BIOS Boot Settings:
Harddisk is First Boot Device Type and USB-Drive is seen as First Harddisk

Reboot from USB-Drive and Select 1. TXT Mode Setup Windows XP

Use Only C: Drive of Computer Harddisk as Partition for Install of Windows XP
and then Select Quick Format with NTFS FileSystem, XP Install is Automatic

***** NEVER UNPLUG USB-Drive ***** Until After First Logon of Windows XP

New Harddisk and Creating Partitions after Booting from USB-Drive:
Direct after Deleting and Creating New partitions, Quit XP Setup with F3
OR Switch OFF your Computer and Boot in any case from USB-Drive again and
Run 1. TXT Mode Setup again so that DriveLetters get their Correct Value
So in this case one Boots ** TWICE ** in the TXT-mode Setup

***** More Info: Read the Help_usb_prep.txt File *****
Press any key to continue . . .
```

Windows 7 USB/DVD download tool Cara ini bisa anda gunakan jika anda mempunyai File ISO dari windows 7.. 1000s of visual basic source code examples • Download [2 6 MB] dan install • Jalankan Windows 7 USB/DVD download tool dari Start -> All Program -> Windows 7 USB/DVD download tool.. • File akan di-copy Tunggu sampai selesai Setelah selesai remove Flash disk dan siap di gunakan untuk menginstall.

Adapun cara lain yaitu dengan install Windows 7 Via Usb Flash Disk, dengan anggapan setiap orang pasti punya Flash Disk jadi anda tidak perlu menambah budget lagi.. • Klik “Browse” kemudian cari file ISO-nya lalu klik “Next” • Kemudian pilih media yang akan digunakan.. In the Control Panel, open Setelah tiba di tangan dan kosong tanpa windows, langkah selanjutnya yaitu menginstall windows 7.. Namun jika anda tidak punya DVD-ROOM Eksternal anda harus menambah budget untuk membelinya.
